

Female looking to share Home in Fairport

I am 30 years old and looking for a roommate around my age. I am on a self-directed budget. I have minimal staff. I have been living independently but I would like a roommate to do community activities with. I enjoy movies, sports, travel and music. I am interested in doing things not just sitting home or having a roommate that just isolated herself in her room. I also enjoy quiet time by myself. I cook every day for myself but would like to learn more. I work part time and also enjoy going to the Y. My home has 2 bathrooms, family room, and finished basement with laundry, large yard and deck with full security. It's in a very family oriented neighborhood. It's also on the RTS access route. It's also a smoke free environment. I also often spend weekend time with my family. I would like to spend time with a future roommate to see if we are compatible before moving in together. Please feel free to email me or my care coordinator.
